wordpress Magic Zoom Plus and Magic Zoom Pro have
been featured in the “WordPress” section of the
download site WordPress.org and on the WordPress
community forums. Some of the top WordPress bloggers
and content creators have downloaded the Magic Zoom
for WordPress plugins and commented on our plugins. If
you are looking for a solution to make your WordPress
blogs more efficient, custom, and visually stunning,
Magic Zoom Plus is the solution for you. Media Library
is built in. WordPress 3.5 and higher required. It works
with any gallery theme with a Thumbnail/Grid layout.
Magic Zoom is a feature rich, powerful, and easy to use
image zoom plugin, which allows you to easily and

quickly increase the size and quality of your images in post and pages. It also works as a lightbox with zoom effect. You can place your image in the box, set the box and its dimensions, and let the plugin do the rest. Magic Zoom will adjust the image size according to the screen dimensions and will set the image quality to the best.

How can I save a post or page image? Click the image in the post or page and select the Save Image button. You can always select the Image Options tab, where you can change the file extension, quality, sizes, etc. You can use the "Save Image" button also to zoom in on a post or page image. Magic Zoom Pro provides an instant zoom on double click, which is extremely fast and efficient to zoom images on any page. In addition, Magic Zoom Pro can even reduce your image file size to help you save bandwidth. Features Super easy to use Powerful Advanced image editor Fully customizable Drag & Drop Uploaded images can be zoomed and panned (moved around) Magic Zoom Pro has been fully tested on all WordPress and WooCommerce themes and plugins compatible with this plugin. Magic Zoom
