Fishbot FishBot is a metin2 fish bot, for sure the best fish bot for metin2! Fishbot supports different mode. You can use Fishbot in one mode: R mode: Fishbot will be randomly pick a fish from your pool. Fishmode: Fishbot will use a smart fish mode, it will pick the fish that have many fish left. A mode that catches fish fast and easy! Chat mode: Fishbot will be the server fish too and the clients will fish for you. Chatmode will work with some fish that need to do something for you to take a fish like bird, shark, squid etc.. There are over 30 fish for the chat mode. The chat mode will be a great mode to play with your friends. Chat mode uses also the fish mode. If one of the client is in chat mode, the bot can't use the fish mode, but the client can still fish for you. The chat mode will be a great mode to play with your 2d92ce491b
