Oct 27, 2017 Forward to "Part V." If you want a deeper understanding of these concepts, you can do worse than study Construction Economics. "Be a friend, be a foe, but be a friend first" – this is the motto of the American Society of Civil Engineers. The American Society of Civil Engineers (ASCE) is a technical society that promotes the science, art, and profession of civil engineering. Membership in ASCE is open to anyone who is interested in civil engineering. Anyone can join and if they are not already a civil engineer they can still join and become a civil engineer. The ASCE will be your "friend" because it is there to educate you on the profession of civil engineering, give you guidance on how to become a civil engineer, and offer you invaluable tools and resources to be successful in your field. The ASCE is also a foe because they will fight for you, your rights, and your interests. The ASCE has your best interests in mind and they work tirelessly to educate individuals and change policies that affect civil engineers.
