Search form Spyro Gets A New World This week, Activision is unleashing the latest installment of the Spyro franchise on the PS3. The game, entitled Spyro: Year of the Dragon, marks the first entry in the series since Spyro 2: Ripto's Rage back in 2003. But the good news for those looking for their next adventure in the "Spyroverse" is that the new game does indeed take place in a new land. While Spyro does land in another dimension (not just another world, mind you) for the upcoming game, it will also be the first time that a new land will be visited for a Spyro game. The land has been named San D'Oria (the name is the same as the city and valley from Majora's Mask) and will serve as the backdrop for the game's adventures. I have played through the demo for the game and it is quite enjoyable. It combines the gameplay elements of other 3D platforming titles, like Mario, but has its own unique style of play. During the demo, I was able to play as a dragon in the game and explore San D'Oria. I flew through treetops and caves, dodged enemies, and even caught lightning bolts in my mouth. I also had control over my eyes, and was able to direct them in order to see around corners and look out for enemies
