

My issue is that the installation process seems to hang when using the latest iDeneb v1.5.1 10.5.7 ISO. I have tried the Apple Server 2010 with Chameleon2 and still no results. I have read that there is a certain . Aug 16, 2009 I found this on the apple forums: Well the link does not work for me yet, but a user named Kristian Lundström has a complete installation guide for the hackintosh 10.5.8, and it seems to me as if the author of this guide has tested the iDeneb hackintosh method and find that it works. Dec 27, 2009 How about you install the iDeneb ISO? It works fine for me with my NVIDIA nVidia 8800 GTX nForce 550A v2 setup with mac OS X 10.5.8 Server (Hackintosh) Chameleon 2. Aug 27, 2010 I installed it without problems using the iDeneb 1.5.1 ISO, some of the apps work but some others don't. Aug 30, 2010 I installed it without problems using the iDeneb 1.5.1 ISO, some of the apps work but some others don't. Nov 9, 2010 Can anyone who has successfully used the iDeneb 1.5.1 ISO please post a tutorial, I have tried everything and I can not get it to work. I recently upgraded to Mac OS X 10.5.8 (64bit) and tried to install iDeneb from the latest ISO released on hackintosh.org. I was able to boot into the Installer and everything seemed to be fine until the iDeneb logo would not appear. I waited for an hour and then just gave up. I have a fairly good understanding of computers and have used Linux and Windows a great deal in the past, but this is the first time that I have had trouble installing software on a system. Jun 16, 2010 iDeneb v1.5.1 (10.5.8) COMPLETE: Install Method: iDeneb (10.5.8 Lite Edition). Works great!! Thanks to mklivecd. Apr 7, 2011 Hi, I installed iDeneb to my
