Similar to Category:Indian films Category:Tamil remakes of Malayalam films Category:Indian action films Category:2010s action films Category:2010s Tamil-language filmsThis is the official website for the new production company, Black Jack Films. We will produce several feature length horror movies in the coming years. We will post updates and news from time to time so check back. If you have any questions, don't hesitate to send me an email or give me a call. Tuesday, May 5, 2009 The entire production team for upcoming film "Hexed" has been cast. All the principal cast members have been confirmed for the film. "Hexed" will be a modern day demon hunter story set in a reality/sci-fi hybrid where demons have descended from outer space. The demon hunters will be on the run from a rival demon hunter in the style of the very popular TV series, "24". So far the producers have cast a female lead, a male lead, and a male supporting character. We have one more character to cast and that will be the film's leading female. We had over 80 hopefuls in the auditioning process and were able to pick from all the actresses that we thought would make a great lead or supporting actress. I am going to be honest, some were borderline in the extreme and we really had to narrow it down to the top five or six in each role. We found that this was the best way to fill each role. As I said, we have a few of the roles in hand, we are looking to lock down the cast soon, and we should have the rest of the cast by next week. The entire production team has also been cast as well. We are now working with our special effects and makeup teams to bring the entire film to life. We are almost done casting for our special effects team and that should be by next week. We are also working on casting our supporting actors. We will keep you posted. Once the film is in post production, we will start to promote and market the film. As of right now we plan to release the film around Halloween time. The official release date will be sometime in 2010. The details will be released shortly. Thank you for all of your support. I
