RedSn0w will download the.ipsw file from Apple and install it on your computer. 3. Tap on Jailbreak (iPhone 3

References External links The iPhone Dev-Team Blog Category:Mobile software Category:IOSQ: Inserting to the middle of a circular buffer in Java I have created a circular buffer in java where I can add and remove elements from it with push and pop respectively. My question is how can I insert elements into the middle of it, as in delete all the elements and than insert the elements starting from the middle and so on. Thanks! A: If you implement push and pop, you can add to the middle like this: public void push(int n){ head = (head+1) % cap; elements[head] = n; } And for pop: public int pop(){ int temp = elements[head]; elements[head] = elements[tail]; tail = (tail+1) % cap; return temp; } The cast of the original Buffy the Vampire Slayer have reunited for a special edition of This American Life. The crew of Buffy went to This American Life for a special episode - which will air tonight (February 5) at 11.00pm GMT on BBC4 - where they shared a couple of anecdotes from the show's history. Joanna Cameron - who played Dawn in Buffy - described the scene where Buffy begins to date Angel in season four, as a "really terrifying" moment for her. Actor Stephen Lovekin, who played Spike, said it was an experience he "would not trade" for anything, while Gillian Anderson - who played the enigmatic and enigmatic Faith - revealed how she'd had no idea of how popular the show was going to become. "It's kind of like that is you've seen a show that has this huge cult following and at some point, you just don't have a clue. You have no idea what is coming at you," she said. Buffy the Vampire Slayer - which ran from 1997 to 2003 - was a teen supernatural drama set in the English city of Sunnydale. The show's characters included Buffy (Sarah Michelle Gellar), a teenage demon slayer, her Watcher Giles (Anthony Stewart Head), and the Scooby Gang - made up of Buffy's best friends Willow (Alyson Hannigan), Xander (Nicholas Brendon) and Oz (2d92ce491b
