I've checked if a part id exists in a User Manual; it exists for your example. But if you want the id of a part, you need to use the Authorize Ivory program. Here's what the program recommends you to do: Go to www.synthogy.com/register Click on "Document Info" Select "Ivory Manual" Under "Table of Contents", follow the path to the information you want to find However, if you want to just find your serial number, the serial number can be found on the inside cover of your Ivory manual. So you could look it up yourself. To find your serial number, you could search for the word "Serial Number" in a plain English dictionary and then look for the word "Serial" in the explanations. President Obama has said that the U.S. has a choice between a "potentially very destructive" military option and diplomacy — and that decision should rest with the United Nations, not the U.S. President Barack Obama on Tuesday said the U.S. has a choice between a "potentially very destructive" military option and diplomacy — and that decision should rest with the United Nations, not the U.S. "And the reason that we're being so vigilant is because at the end of the day, there's a diplomatic solution to this that we can pursue," Obama said during a White House press briefing. "And while the United States is prepared to use military force if necessary to defend our core interests and the security of our allies, what we don't want to do is see our military, our young men and women in uniform, our 1cb139a0ed
