Simply manage your lists, drag and drop tasks and events. The

program allows you to keep your notes easily accessible, share them with your team or can attach them to other files. Portable Efficient Sticky Notes is an intuitive software for the home or office that will help you manage your lists of tasks and appointments with Efficient Notes. The software allows you to create and organize your lists, drag and drop tasks and events, and attach them to other files or systems. Another feature is that the app also offers you access to the Notes Editor

window where you can edit the list, its layout and individual components. This is especially useful in the list management area where a number of tasks are always being included. It is important to mention that you can save the list as well. With this approach, the notes are automatically backed up as you create them. It is a convenient way to ensure safekeeping of the data. It is also worth noting that Portable Efficient Sticky Notes is not an enormous program by any means.

However, its file size is quite high, which in most cases is not a good thing. And this is the downside to Efficient Notes. Keep in mind that this app is not only for the home and office users; it is meant for the general public as well. Key Features: You can create lists with tasks and events. The interface is intuitive, allowing you to easily organize your lists. There are a wide range of options and settings in the application that will enable you to customize the list as much as you need to. You can drag and

drop tasks and events to the lists. There is a feature that lets you change the appearance of the tasks and events as well as the titles, dates and more. You can save the lists, so you won't have to export them each time you want to work with them. The software is cross-platform and works for all major Windows and Mac platforms. The app runs without installing, which makes it very easy to work with. What's New: Version 2.3.6 fixes 09e8f5149f

Description It's easy to mess up when taking notes. Just organizing them can be extremely hard. With the help of the notes, it's possible to save your ideas more effectively and often. For those, a few notes help a lot. However, not all of us have enough time and effort to make notes in the ideal way. That's why there are portable sticky notes. Portable Efficient

Sticky Notes is a really user-friendly program that allows us to do that in a fairly efficient manner. The program includes all of the necessary features to take and then organize notes, even the ones that should be kept for a long time. This can be done quite easily, thanks to the program's user-friendly interface. It's possible to save the notes under any desired name and then arrange them in your computer's desktop. This way, it's easier to keep track of the notes and to display them in the order that

you want to. It's possible to modify the font size, color, style and alignment. Of course, the background color can be changed to any of the available preset hues. However, the user may be pleased to know that the default yellow color may be adjusted by changing the background color. It must be noted that the entire tool can be deployed on any type of removable device, such as USB flash drives. 1. View data 2. Erase data 3. Backup data 4. Show password 5. Choose a file 6.
