Its only one type of box, different font and styles set but it still shows this purple line. How to remove the purple line around textbox A: You can change the color of the border with css by using border-color See Here If you really wanted to remove the outline I think you could try playing with the border-style. If this doesn't work, you could use an overlay on top of the textbox. See Here Q: How to derive IV/PEM from EC master key and private key in Javascript I have a public/private EC master key pair, generated by Bouncy Castle using the EC DRBG. I need to derive an IV/PEM for my CBC cipher. The Bouncy Castle documentation suggests the following to derive the IV/PEM from the master key and private key. EC Credentials ECKeypair keyPair = new ECKeypair(ECAAlgorithms.SHA256, new BigInteger(256, new SecureRandom())); KeyAgreementParameters params = new KeyAgreementParameters(new BigInteger(256, new SecureRandom()), keyPair.getPublic(), keyPair.getPrivate()); EccKeyPair eccKeyPair = (EccKeyPair) ECKeypair.createKeyPair(ECAAlgorithms.SHA256, params); byte[] iv = eccKeyPair.getEncoded(); // ececc key KeyFactory kf = KeyFactory.getInstance("EC", "BC"); ECCUtil.unwrapECKeypair(eccKeyPair, kf.generatePublic(new KeyGenerationParameters(new SecureRandom()))); // master key KeyFactory kf = KeyFactory.getInstance("EC", "BC"); ECKeypair masterKeyPair = (ECKeypair) KeyFactory.getInstance("EC", "BC").generateKeyPair(); ECCUtil.wrapECKeypair(masterKeyPair, kf.generatePublic(new KeyGenerationParameters(new SecureRandom()
