This is the strongest type of coffee you can get in a coffee shop, and it's also considered the most complete form of coffee. You may enjoy this coffee if you prefer your coffee very sweet, as the flavour is quite concentrated in this. Whether you love sweet or bitter coffee, the best thing to do is to create a coffee routine that works for you. When do you drink coffee? Usually in the morning? We can all benefit from knowing how much coffee we consume, and what it does to us. A simple word document with a rather large file size.
