Category:Events in WellingtonQ: Update position of multiple divs with jquery when hovering I'm making a little online shop game, and I need some help with my structure. I have two divs that contain images that will cover certain part of the screen. Now, when the mouse hovers over a

div that contains an image, the image is moved to occupy a certain percentage of the screen in relation to the mouse position. I have 3 such divs in my page that should change position, but only one should at the same time. The html of the divs I'm talking about looks like this: Here's the

function I used to change the image source depending on mouse position: `$(document).ready(function(){ $(document).mousemove(function(e){ var mouseX = e.pageX; var mouseY = e.pageY; var mouseDistance = Math.abs(mouseX - mouseY); mouseY -= window.innerHeight * 0.5; $('#reward_2_cover img').css({ 'left': mouseX + 'px',`
