Photoshop effects are a great addition to my photography and photoshop work. I use this add-on almost daily. I use it with my Nikon D4, but I also tried it with my Canon 5D Mark III, and was very impressed. I would not switch to another lens plug in. shakerw

,03/11/2014 Excellent quality effects I have been using this for a while now, and it is very useful to get a more natural look to your

1. RAW file format

RAW file format is a specially designed file format, so it is not dependent on JPEG (Joint Photographic Experts Group) compression, which is widely used by the majority of digital cameras.
