**What's New In?**

Manage your trips in an easy way! Track My Mileage is the tool you need to track your car trips. It's easy to use, works without installing software, and is suitable for personal or business trips. This unique app offers many useful features: - Track your trips and mileage easily. - For various trip purposes, you can choose to keep an overview of your mileage or just find out the distance by the trip itself. - Choose your source and destination and add as many vehicle records as you like to the database. - Add notes to each trip and you can also use it to keep the trip history up to date. - View your travel itineraries in a diagram view or in a list view. - Have your record available anywhere you need it and sync them with OneDrive easily. - The app comes with several optional field types, for a variety of trip purposes. - Finally, once you're done, you can export the records to CSV file type, and continue editing them using other specialized apps. *************** Licence Terms: Rating: 1 Download: Like this: Chris Burt Chris Burt writes about video games.
