Something (the creators have little time to play), they apparently come up with themselves. There are many hints of work in other projects - the main thing is to pay attention to it. Translation changes, of course, can be seen at the very beginning of the book. But the general impression will not change: the language of the book is still English. The pages of the book have everything so that a novice computer game player can enjoy their favorite battles at the Pit Stop

League and other similar events. If you have a not very old machine, you should make sure that 6.0 can be installed in it in advance. How to buy a game on Steam? There are dedicated stores on Steam. You can buy the game in them from the very center by getting a promo code. Keep in mind that this type of purchase is not available for all games if you want to buy a specific game. This requires the presence of a map you already have, which will be installed automatically on your computer. So, what should you do in Steampark? To play Stealth, something like Tomb Raider. The most important thing here is not to limit yourself. This is why we love the Lara Croft series of games. So do not forget about the spaces where you can "pump" your character. Next, you need to make a choice between the two modes that are present in the game. These are Trial and Deathmatch. If you choose the first one, you get the usual game for a motley ninja in search of clues. If you use DM, then here you are free to do

whatever you want - tags, so that everything is grown-up. The choice of mode depends entirely on your wishes. Just before the start of each DM, there is an attack. She looks like this. When luck is on your side, before showing you the attack, you will see a large web with droplets of liquid.

These are the drops of poison that you must catch. Because they do not just snap back, but fly in one place - to your opponent. The first one to grab these drops survives. Poison in his blood
