Let's be friends :) *FTC: - Poshmark is a website where people buy and sell fashion. It is similar to Amazon for fashion. I 77a5ca646e

The app's simple interface makes it straightforward to use for anyone who wants a light, yet useful tool to help them organize their day, without investing too much time and effort. Ratings (1=Bad (0=Great)) General 2.0 Value for money 3.0 Ease of use 4.0 The ability to add reminders, set alarms, view completed tasks, and add notes about them are basic, yet useful features for a specific set of users. AppSpy's review for ActiveNote for Windows 8 ActiveNote is a handy app that will organize all your day-to-day tasks into a new way. ActiveNote is a simple program for maintaining multiple tasks, and helping you stay on top of your chores. It is organized into three distinct parts, active, complete, and today. An alphabetical list of tasks can be displayed in a pop-up bar on the side of the screen, and for each, you can add notes, set alarms for yourself, or set a due date. The app is relatively lightweight, and requires no installation. To create a new task, you simply start by typing in the text into the blank area provided, as a notification will appear on the right. A pop-up menu allows you to decide between adding a due date, or using the existing one for new notes, and pick from a set of color options, or enter your own. A set of settings appear after you select either task option. There, you are able to change the name of the task, description, and change the colors for the active, overdue, completed, and deleted ones. The app will also remind you about the due date each time you view the task, and you can adjust the reminder time. The main issue with this app is that it can't be used as a cloud-based solution. The database is not backed up, and there is no option to export it to different types of files, like TXT, DOC, or RTF. You can't pick your own custom alarm tone, or pick from a variety of fonts to be used in your notes, and you can't format the interface. It does have a clean, simple interface, and it does help you get organized. It's a good app, and should be tried by those who need a lightweight solution to keep their daily tasks in order. The app's simple layout provides a straightforward view of all of your day-to-day

What's New in the ActiveNote?

Mobile version: Crocodile Badge and Jar Experience a real survival adventure. Camp and live with crocodiles. This product features over 20 unique levels in 4 worlds, hundreds of challenging tasks, over 50 enemies, and 20 different types of animals. Enemies will constantly try to kill you with various attacks and traps. These include bite-attacks, fireballs, traps, and many more. In addition, watch out for crocodile helpers, who can help you out in some tasks. But if all your helpers die, you'll be in trouble. You'll have to find new helpers, or restart the level from the beginning. If you can get through all the challenges, you'll have to play the music of the beast world. This product includes 20 levels, thousands of challenging tasks and 50 different types of creatures. You'll have to collect thousands of gold pieces and use them to buy different useful tools. You have to defeat the evil warlord. He will attempt to destroy your camp in the jungle and he will not give you a chance to make it through. You'll have to explore the swamp and find your way through all the levels. There is a nice and simple tutorial that will help you along the way. This game features a rich and unique story. It includes beautiful scenery and beautiful music. In addition to the regular version you'll have access to a free bonus of 10 levels. As you can see, this product features 20 exciting levels, many challenging tasks, and 5 worlds. Crocodile Badge and Jar Experience a real survival adventure. Camp and live with crocodiles.
