Smiley's Nursery is a registered Home Child agency. About this Organization Smiley's Nursery, a popular Home Child agency, is run by Debbi on a not-for-profit basis. Debbi, a homeschooling mother of a seven year old, began teaching Home Child Grouping in 2010 when her 7 year old entered grade school. After seeing how much fun her son was having with the Grouping curriculum, Debbi decided to provide Homeschooling groups for other families to experience the joys of a fun learning environment while gaining valuable life skills. When Debbi founded Smiley's Nursery, she and her husband Darren had one goal: to share with other homeschooling families the joy and freedom of Homeschooling through Home Child Grouping. But in January of 2012 Debbi was diagnosed with cancer. Rather than shutting down the nursery and giving up, Debbi chose to continue providing the services to the families who had booked their Grouping sessions well in advance, and did so in addition to her cancer treatment schedule. Debbi was on a treatment regimen for cancer for more than 3 years, which she referred to as a "Wild Ride." But through it all she carried on teaching, helping and encouraging all the parents she knew in the Homeschooling community. After having a successful second surgery in early 2013, Debbi created and began teaching the Homeschooling Grouping Grouping class for two more years as she continued her treatment regimens. During this time she taught for 1,000+ families, helping them with their Grouping sessions. Debbi is currently in the final stages of her cancer treatment, and is entering a treatment program for her next cancer (a new and much more difficult cancer to deal with). As she begins to work on her next cancer, she is working hard to get back on her feet and ready to move forward. Thank you Debbi! We are so thankful to have you as a resource for Home Child, and we are sure you will continue to make a difference in the lives of many! Smiley's Nursery offers group lessons in Pre-School Children, Preschool, Kindergarten, or Elementary. Grouping is an effective, three-year curriculum, based on the core concepts of Home Child Grouping and having fun at the same time! Grouping teaches children to read, write, and do math facts quickly and easily. It also helps children
