"The best VPN software for Windows. Also VPN Security is provided free by C-Fos. Read my review here. From the C-Fos website: "C-Fos provides its users with a free VPN service, which is completely hosted on our customer's machines and is accessible via a Web based GUI. It comes with a set of profiles, including a Tor, Privacy, and VPN ones. cFos VPN service is highly configurable and comes with a large number of advanced features, making it the perfect choice for a consistent internet privacy. In addition to that, cFos VPN is multilanguage, so you can change your interface language. cFos VPN also allows you to choose an alternative DNS server, to access geo-blocked websites, and to switch off parts of the service if you want to." MEP Locator is a fast and easy way to find the closest EU offices and services using your postcode. Find your location in just a few seconds. On my screen, I'm in Birmingham, United Kingdom, but my target location is SE25 9SF in Kent. I'm currently using online mapping tools to determine a route to SE25 in Kent, but this is very slow, and it can be dangerous in an emergency. I want a quick, reliable and geographically accurate way of working out the location of my nearest MEP office in this region. MEP Locator doesn't offer anything fancy or unique, but it seems to be well-engineered and works quickly and accurately. Clicking on the 'Find' button takes me to a page which automatically populates a form. This form asks for the country I'm looking for, the postcode and then asks for a region and district. The search is quite accurate as it also allows me to search by district. This gives a more accurate result,
