The application is lightweight and does not weigh down your computer or your system performance. Not having a problem installing or using the software is the major benefit. Overall, the application has a huge list of features that we have tried. Installing the application takes only minutes without the need of prior knowledge on the free-programming environment. Like many programs out there, the application features a built-in web browser that allows you to browse and download files that are compatible. The installation options are really simple. Simply choosing the required options and you are done in just a few minutes. After installation, we managed to give the application a try without thinking any technical errors. For those who prefer to download the software to their drives for easy access, the FreeDownloadManager is a program that can be used to automate the process. The program is compatible with popular download programs, including Firefox, Internet Download Manager (IDM), CyberLink Power Downloader, Mozilla Firefox, uGet, uGet! and more. The program has a specific place for downloading files and a sharing option. After the files have been downloaded the user can unzip and extract the software. The user might have to follow a few extra steps that come with the software. The software provides a user friendly interface, and that alone makes it easier to use. The interface can be used to create, edit and save pdf files. No installation is required. The following are the advantages and disadvantages of the software: Advantages: Advantages: Disadvantages: Advantages: Price: Free Features: Interface: One of the main problems that most people have is locating and downloading the software. Since it is a free download there is an instant downfall to the whole concept of the file-sharing program and our aims. The program doesn't seem to be very user friendly, and it also presents some issues for those who are not computer savvy. It is a free download after all; a quality that most people don't expect. The program is hard to find on the internet and most people want the trial or full version, not the free one.
