## SparkTrust Inspector With Registration Code

SparkTrust Inspector is a lightweight software application designed specifically for helping you scan your computer and websites for possible threats, remove malware, and optimize the overall performance of your system. Clean looks The application reveals at-a-glance information about the last scan and numbers of problems, malware and fixed items. In addition, you can create a system restore point so you can easily recover data in case of system crashes. Customize the scan process The tool gives you the possibility to tweak the scan task by looking for certain issues which are related to system problems, malware protection, system performance, privacy protection, and junk files. At the end of the scan, you can view details about the computer issues using colorful bar indicators and fix all problems with a single click. Extra tools to play with SparkTrust Inspector comes packed with several additional tools that are designed to help you improve memory use by optimizing the active processes, look for software applications able to handle specific file formats (you can download them on your computer), disable Browser Helper Objects (BHOs) to boost browsing speed, disable startup items, and defrag your hard drive. Configuration settings You can launch the tool at Windows startup, automatically start the scan task, create restore points before fixing items, and automatically start fixing items at the end of the scan. Plus, you can select the folders and specify the file extensions that you want to scan when performing a junk file scan. When it comes to privacy scan settings, SparkTrust Inspector lets you manually select the information that you want to include in the scan, namely Windows cache and history, Internet browsing history (e.g. IE, Opera, Firefox, Chrome, Safari), chat and instant messaging history (ICQ, Yahoo! Messenger, Trillian), MS Office and multimedia history, file sharing history (e.g. uTorrent, Kazaa, BitComet), email trash (e.g. Thunderbird, Eudora, PocoMail), and third-party app history (e.g. Adobe Flash Player, Yahoo! Desktop Search). Bottom line All in all, SparkTrust Inspector helps you maintain the performance of your computer by fixing all sorts of problems that affect its stability. KEYMACRO Description: SparkTrust Inspector is a lightweight software application designed specifically for helping you scan your computer and websites for possible threats, remove malware, and optimize the overall performance of your system. Clean looks The application reveals at-a-glance information

### What's New in the?

Arpsound XP Labs User View is a handy user-friendly application designed specifically for users that want to find, organize and manage all the listening, recording and viewing activities of the operating system.
