Thanks to this program you can easily compose and print music without using a computer. Simply choose the song you want to write and arrange the staves. The application automatically assigns a staff for each musical instrument or effect (chords) that you select. After adding the chords, it is possible to edit the staves manually or use the tools provided by the program. The program offers you multiple functions, including the ability to change the key, the time signature and the tempo of the staves. You can use the 'human playback' feature to listen to the entire song as if it was performed by a live band. When you are finished writing your song, you

can save your work as a MIDI or MP3 file. It is also possible to export it as a WAV file, so that you can play it on your computer or on your MP3 player. Thanks to its functions, you can customize the staves and add annotations, and the application also allows you to insert lyrics or mark sections of your song.
