Every now and then, you will come across a group of professional computer enthusiasts who take pride in the fact that their skills have enabled them to configure and create a custom build on their PCs. This group is called a PC modding community and today we are going to take a look at three such communities that have made it to our list of the top PC modding communities. The first community we will look at is called Yozef, which is a community of computer enthusiasts living in the Czech Republic. Yozef began on February 4, 2006, and has seen consistent growth ever since. #7. wiki. 3dMark Pro Score – Søren, September 9, 2012 at 9:59 PM | Report abuse. 2.002 MB x 3. Loading. I am building a mini PC (obviously) and am about to go for a test run using the 8 GB Patriot SSD. However I am a little concerned that I might hit the SATA6GB/s limitation on my RAID system, as I have no intention of going any further than the RAID arrays and I do not really need the speed
