investing in previous tools and technologies. the project is transitioning into open source. i'm reaching out because i am so tired of all the negative energy and the way it's affecting me and my relationships, i feel like i am dying inside. i've lost my childhood, my dreams, my ability to feel joy and i feel like there's no way out. i don't know where i am but i can't find my way back. i've searched the internet and every site has someone asking for help. every site has lots of negative comments too. i'm at the end of my rope and i have nothing left to live for. i am so lonely and scared, i'm afraid of everything. i live in total darkness and i don't know how to get out. i feel i have lost everything and i don't know what to do to get it back. i hate my life and can't do anything to change it. i really just want to be taken care of and i just want someone to answer my questions and tell me what to do and where to go. i can't sleep because all i can see is darkness. i don't know what to do. i have no energy and no will to live. if i don't find a way to stop this, i will die. 5ec8ef588b
